

EK BALAM CENOTE MAYA

It is an ideal place to spend a day enjoying the beauty of Maya architecture and tropical nature with the cenotes of Yucatan.

Ek Balam in Mayan language means "Black Jaguar". It's a place of major tourist interest among all the archaeological sites of the peninsula. There you will see the famous Acropolis pyramid, a field for the Ball Game, The Twins, the Observatory and other ancient buildings that you will visit during your excursion with a certified bilingual guide.

After the visit to Ek Balam you will swim in the cenote, an underground lake, where you will be offered to enjoy various water activities like rappelling, Tarzan liana and Trepachanga. To make your experience more exciting we will pass through several maya villages where you will see how the descendants of this ancient civilization are living nowadays.
